PRESS RELEASE

**THE SVG RELIEF INC DONATES TO THE ROYAL ST. VINCENT AND THE
GRENADINES POLICE FORCE**

The Royal St. Vincent and the Grenadines Police Force (RSVGPf) are once again recipients of a generous donation of 2 high-performance water pumps, gas jugs, several high powered pressure washers, and some reflective safety vests by St. Vincent and the Grenadines (SVG) Relief Inc. based in the United States of America. The items donated were directed to the Traffic Department, the Fire Department, and the rural Police Stations located on the northern end of St. Vincent and the Grenadines.

At the Handing over ceremony held at the Central Police Station on 14.07.2021, Mr. Atibo Williams, a representative of the SVG Relief Inc explained that his organization was always devoted to donating to SVG, in an attempt to better the lives of Vincentians. He stated that his organization is currently in SVG on a fact-finding mission to donate to statutory bodies and

NGOs. Mr. Williams went on to commend the police organization for the work it has been doing in ensuring the safety and wellbeing of Vincentians and hopes that the donations made better their efforts in this regard. He further mentioned that his organization would continue to pledge its continued support to the police organization.

Receiving the items on behalf of the RSVGPF, Commissioner of Police Mr. Colin John thanked the SVG Relief Inc. and the Diaspora Committee for their generous donation to the police organization. He stated that SVG Relief Inc. has always been forthcoming in making donations such as computers and other items to the organization. Commissioner John explained that the items donated are timely and very much in need for the proper execution of the duties performed by Police Officers. The Commissioner went to state that, it was evident that some thought was placed into what was donated. He noted that the items come post-eruption of the La Soufriere Volcano, increases the police's effort in firefighting, and will enhance the effort of the traffic department especially in the late evenings or in low-lit areas. Commissioner John ended by thanking the SVG Relief Inc. and the Diaspora Committee for their generous donation and stressed that he looks forward to their continued support and partnership.
